### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Crawford on 9/5/07.

The application has been amended as follows:

Please cancel claim 113 without prejudice.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The following is an examiner's statement of reasons for allowance:

Claims 1-40 and 42-113 have been cancelled. Applicant's arguments with respect to the PKC $\alpha$  inhibitor consisting of the myristoylated peptide of SEQ ID NO: 1 are persuasive. The amendments to claim 41 overcome the enablement rejection under 35 USC 112, first paragraph; the indefiniteness rejection under 35 USC 112, second paragraph; and the art rejection under 35 USC 102. These rejections have been withdrawn. The double patenting rejection is withdrawn in view of cancellation of claims 1-98 in co-pending application 11/332,774.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
